Product Description

Greenworks OptimusZ Series 9 72" (Rear Discharge) Zero-Turn Mower | OZ972R

The **OptimusZ 72" Rear Discharge Zero-Turn Mower** is the most powerful and productive electric mower on the commercial market. Powered by a 36kWh battery, it delivers gas-equivalent performance of 70 horsepower, up to 8 hours of runtime, and the ability to mow 28 acres on a single charge. Designed for professional landscapers and large-scale operations, the OptimusZ combines all-day cutting capability with breakthrough technologies like the *OptimusCut 30* constant-speed cutting system, *PowrTraq 65* high-torque drive system, and integrated 4G smart connectivity for fleet management, theft protection, and real-time diagnostics. With zero emissions, low noise, and virtually no maintenance, it redefines what's possible in commercial mowing—offering a cleaner, faster, and more profitable way to work.

- **Unmatched Power:** Delivers up to 70HP equivalent with a 36 kWh battery
 - **High-Speed Performance:** Reaches speeds up to 14 MPH and covers up to 28 acres on a single charge
 - **All-Day Runtime:** Up to 8 hours of continuous operation; recharge in as little as 5 hours with the super charger
 - **Industry-Leading Cut Quality:** OptimusCut™ 30 system maintains a constant 19,000 FPM blade tip speed with a 72" 7-gauge steel rear discharge deck
 - **Advanced Drive System:** PowrTraq™ 6 kW motors provide smooth, responsive control even on 20-degree slopes
 - **Smart Features:** Equipped with Smart G Connect™ and front/rear ETO ports
 - **Operator Comfort:** Premium high-back adjustable 4" suspension seat with headrest for all-day comfort
 - **Built to Last:** 5-year / 2000-hour commercial warranty
-
